Honorable Gavin Newsom
Governor of California
Capitol Building, 1st Floor
Sacramento, CA 95814

RE: AB 32 (BONTA) – REQUEST FOR SIGNATURE

Dear Governor Newsom:

Disability Rights California (DRC), a non-profit advocacy organization that advances and protects the rights of Californians with disabilities, **supports AB 32 and requests your signature.**

AB 32 abolishes the private for-profit prison industry in California in order to protect vulnerable individuals from serious harm within our state border. The bill also prohibits a for-profit privately owned and operated detention facility that is operated pursuant to a contract or agreement with a governmental entity. The amendments would exclude from this prohibition various facilities that provide assorted health and welfare services.

Pursuant to state and federal laws, DRC has broad authority to protect and advocate for the rights and interests of people with disabilities, including authority to investigate incidents of abuse or neglect; to monitor facilities and programs serving individuals with disabilities; to pursue administrative, legal, and other appropriate remedies to ensure the protection of the rights of people with disabilities; and to provide information and training on, and referral to, programs and services addressing the needs of people with disabilities. That authority includes access to public and private entities providing services and supports to individuals with disabilities, and to information and records prepared or maintained by these entities pertaining

to such individuals in carrying out their responsibilities. The authority also extends to facilities used to house or detain noncitizens for the purpose of civil immigration custody.

Pursuant to this authority, DRC conducted an investigation of the conditions within the Adelanto Detention Center, one of the largest privately operated for-profit immigration detention facilities in the United States, located in the City of Adelanto in San Bernardino County, a facility that would presumably be prohibited by AB 32. The facility is owned and operated by a private contractor, the GEO Group, Inc., pursuant to an Intergovernmental Service Agreement between the Department of Homeland Security's Immigration Customs Enforcement (ICE) and the City of Adelanto. We conducted a tour of Adelanto's facilities and completed interviews with ICE and GEO Group leadership, facility staff, and Adelanto detainees. We reviewed thousands of pages of relevant policies, procedures, and forms as well as individual detainee records.

Following that investigation, DRC released a report in March 2019: "There is no Safety Here: the Dangers for People with Mental Illness and other Disabilities in Immigration Detention at GEO Group's Adelanto ICE Processing Center." (<https://www.disabilityrightsca.org/reports/adelanto>) That report detailed our key findings:

1. People held at Adelanto are subjected to punitive, prison-like conditions that harm people with disabilities.
2. Adelanto has an inadequate mental health care and medical care system, made worse by the facility's counter-therapeutic conditions and practices.
3. GEO Group significantly underreports data on the number of suicide attempts that occur at Adelanto.
4. Adelanto's system fails to comply with disability antidiscrimination laws as well as ICE's detention standards regarding the treatment of people with disabilities.

From those findings our report concluded:

Conditions at Adelanto pose serious risks to people with mental illness and other disabilities. The situation demands action. Access to treatment and disability-related accommodations must improve, and steps to reduce unnecessarily punitive conditions at the facility must be a top priority. At the same time, given the extraordinary risks and

the harms to people with mental illness and disabilities detained at Adelanto, it is essential to ask: Is it *necessary* to imprison this population? Are there less restrictive and less damaging alternatives that better serve the country's constitutional freedoms and commitment to the rights, safety, and dignity of all?

We believe that facilities that would be prohibited under this bill pose significant risks to the detainees because of the conditions in which they are operated. When conditions in a detention facility fall below prevailing legal and other standards, it is people with disabilities who are among the most likely to suffer the harms that result.

For these reasons, DRC supports this bill and requests your signature. Please contact me if you have any questions about our position or if I can provide any further information.

Very truly yours,

A handwritten signature in black ink, appearing to read "Curtis Child". The signature is fluid and cursive, with the first name "Curtis" and last name "Child" clearly distinguishable.
