**RE: AB 381 (CALDERON) – SUPPORT**

Dear Assembly Member Calderon:

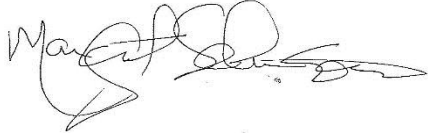

Disability Rights California (DRC), a non-profit advocacy organization that advances and protects the rights of Californians with disabilities, supports AB 381. This bill is scheduled for hearing in the Assembly Transportation Committee on March 20, 2017.

This bill would establish the Voluntary Deaf or Hard of Hearing Notification Program. The program would voluntarily allow a person at the time of registration of a vehicle indicate the driver may be deaf or hard of hearing and further allow a peace officer to access this information. The department would be prohibited from indicating, in any manner, the information provided on a driver's license, certificate of ownership, registration card, or license plate.

Some people who are deaf fear being targeted if everyone knows they are deaf. However, some people who are deaf or hard of hearing want a peace officer to know they are deaf. This bill will provide the information to peace officers without displaying the information to the public. This program is also voluntary, allowing people the choice of providing the information.

For these reasons, we support this bill. Please contact me if you have any questions about our position on this bill.

Very truly yours,
